HEMATOLOGY & INFLAMMATORY MARKERS

Test performed	Result	Reported unit	Illustrative range
Leukocytes (WBC)	6.2	10^3/µL	4.0 – 10.5
Absolute neutrophils	3.4	10^3/µL	1.8 – 7.5
Absolute lymphocytes	2.1	10^3/µL	1.0 – 4.0
Neutrophil / lymphocyte ratio	1.62	ratio	—
C-reactive protein (CRP)	1.8	mg/L	0.0 – 5.0

Method note: Automated hematology analyzer (simulated); CRP immunoturbidimetry (simulated).

Important: The reference ranges shown are illustrative document-layout content, not validated clinical ranges. They must NOT be imported as measured results. The date is a collection timestamp, not a separate measurement.

SYNTHETIC DATA — NOT A MEDICAL RECORD. All values, identity, laboratory and methods are fabricated. For parser evaluation only; no diagnosis or clinical interpretation.

No MITOCHONDRIA catalog IDs appear in this document. The parser must identify analytes by terminology and request human confirmation when ambiguous.
