MITOCHONDRIA | Two-Day Examination Record

ALEX MORGAN | Synthetic Astronaut | November 2026 | Two examination dates

SYNTHETIC TEST DATA - NOT A REAL PATIENT - NOT A CLINICAL DIAGNOSIS

RECONSTRUCTED test fixture for P61.4 acceptance. The owner's original two-day PDF was not supplied; 12 Nov rows are copied from the owner-supplied 304-observation CSV; on 13 Nov the seven held values follow the owner's P61.4 table and the other 31 values repeat 12 Nov. Scope: 2 dates (12-13 November 2026), 38 measurement types, 76 observations.

EXAMINATION 1 / 2 | 2026-11-12
